We would like to invite you to our first Open House during the school day. This event will give you the opportunity to see our teachers and students during their regular day. You will also have a chance to meet our administration and hear new details about the 2020-21 year.

You will be able to tour our core academic classrooms (math, language arts, science, social studies), as well as some elective classrooms. We are looking forward to showing you why you will want to be a part of the OMS family. This event will last approximately 90 minutes.
