FEEL FREE TO CALL US WITH ANY QUESTIONS

239-877-0116

We are a private company, and not a school - endorsed club.

January 24th Magic Sand

Discover 3 special types of sand, and compare and contrast their properties. Even make your own special matter.

January 31st Van De Graaff

Shocking discoveries are sure to be made as we experiment with static electricity!

February 7th Art Bots

Wiggle and shake your way to a masterpiece with your new art friend!

February 14th Chemical Reactions

Discover the difference between physical and chemical changes, and create an awesome chemical reaction to take home.

February 21st My Loving Heart

Learn about our hearts by experimenting with a working model, and taking a closer look at the blood inside our bodies.

February 28th Energy All Around

Look beyond the light switch as we discover multiple nonrenewable energy sources.

March 6th Cup and Block Engineering

Take your engineering designs to the next level as you balance your structure on a single block!

March 27th Light in Action

Create a unique light using a combination of colors, movement, and prisms.

April 3rd Color in Action

Discover the difference between absorbed and reflected colors, and do some fun color chemistry.

April 17th Elephant Toothpaste

Use chemical reactions to help get our Nutty Scientist elephant to brush his teeth before his big dentist appointment!

April 24th Trip to the Planets 1

Trip to the Planets 1 includes experiments from the heat of Mercury, to the atmospheres of Earth and Venus.

May 1st Trip to the Planets 2

Trip to the Planets #2 includes volcanoes on Jupiter to the surface of Mars.

May 8th Trip to the Planets 3

Trip to the Planets #3 includes experiments such as the tornadoes on Neptune, to the atmospheres of Uranus Saturn.
