**Now
Enrolling!**

**Oasis Charter Elementary School
K - 1st Grade**

We are thrilled to announce that we will be holding a weekly S.T.E.A.M. club at Oasis Charter Elementary School! Our programs are **PACKED** with colorful, wonderful, educational **FUN!**

FEEL FREE TO CALL US WITH ANY QUESTIONS

239-877-0116

We are a private company, and not a school - endorsed club.

January 23rd Magic Sand

Discover 3 special types of sand, and compare and contrast their properties. Even make your own special matter.

January 30th Robot Mouse Challenge

Create obstacle courses for your friends to navigate their mouse to the prize. These robots are easy to use, and put your critical thinking skills to the test!

February 6th Van De Graaff

Shocking discoveries are sure to be made as we experiment with static electricity!

February 13th Art Bots

Wiggle and shake your way to a masterpiece with your new art friend!

February 20th Chemical Reactions

Discover the difference between physical and chemical changes, and create an awesome chemical reaction to take home.

February 27th My Loving Heart

Learn about our hearts by experimenting with a working model, and taking a closer look at the blood inside our bodies.

March 5th Energy All Around

Look beyond the light switch as we discover multiple nonrenewable energy sources.

March 12th Cup and Block Engineering

Take your engineering designs to the next level as you balance your structure on a single block!

March 26th Expedition Dinosaur

Become a paleontologist as we dig for dinosaur skeletons, and create a fossil of our own.

April 2nd Light in Action

Create a unique light using a combination of colors, movement, and prisms.

April 9th Color in Action

Discover the difference between absorbed and reflected colors, and do some fun color chemistry.

April 16th Elephant Toothpaste

Use chemical reactions to help get our Nutty Scientist elephant to brush his teeth before his big dentist appointment!

April 23rd Trip to the Planets 1

Trip to the Planets 1 includes experiments from the heat of Mercury, to the atmospheres of Earth and Venus.

May 30th Trip to the Planets 2

Trip to the Planets #2 includes volcanoes on Jupiter to the surface of Mars.

May 7th Trip to the Planets 3

Trip to the Planets #3 includes experiments such as the tornadoes on Neptune, to the atmospheres of Uranus Saturn.

Registration available on our website!
